DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Husemann et al., U.S. Patent No. 6,765,078 (hereinafter "Husemann;" also published on WO01/98383 on 12/27/2007). Husemann teaches a process for preparing pressure sensitive polyacrylate adhesives by preparing a polyacrylate composition with a C-S-C sequence. See Husemann, Examples 1-12. Husemann further teaches the addition on Zn oxide (oxide serving as ligand) and the crosslink of the PSA's with high energy radiation. See Husemann, col. 5, line 42 through col. 6., line 31.

Claim Objections

3. Claim 10 is objected to because of the following informalities: "rhodanides (thiocyanates)" has multiple meaning change to rhodanides, thiocyanates. Appropriate correction is required.

4. Claims 11-12 are allowable.
